

## WiDS '22 - '23 Final Documentation

### <2 - Data Analytics using Python> <Aditya Prakash>

Team Member Name	Roll Number	Email-Id
Gauri Sonawane	200020142	sonawanegauri00@gmail.com

#### Introduction to Problem Statement

Datasets were given

#### Existing Resources

Resources from youtube and udemy

#### Proposed Solution

Solved problems and analysed solutions using pandas, numpy.

#### Methodology & Progress (Mention the work done week-wise)

*Datasets and assignments done in the week that it is given itself, to ensure on time submission*

## Results

Please add the link to drive folder/ github page consisting of code files and reports

<https://github.com/GauriSo/WIDS.git>

## Learning Value

## Tech-stack Used

Python

## Suggestions for others

### Contribution by each Team Member

All
